

MOONRAY INSTITUTE OF PHARMACEUTICAL SCIENCES

(Sponsored by Moonray Educational Society)

(Approved by AICTE & PCI, Affiliated to JNTU, Hyderabad)

Near Tollgate, Adjacent NH-44, Vill. Raikal, Mdl: Shadnagar, Farooqnagar,

Dist. Ranga Reddy - 509202

Ph: 08548-213259, Mobile: 9985119801, 9000004806, 9989456507

4.1.1 Availability of adequate infrastructure and physical facilities viz., classrooms, laboratories, ICT facilities, cultural activities, gymnasium, yoga centre etc. in the institution

The Institution's Management is dedicated to offering stakeholders high-quality services, and in that vein, strives to provide the maximum amount of financial assistance and infrastructure support required annually.

In order to support the teaching and learning process both directly and indirectly, the college has established policies and procedures to develop and continuously improve the infrastructure, which includes laboratory equipment, built-up space, faculty, technical, and administrative staff, and learning resources (print and electronic aids). A lot of departments submit budget requests each year to buy brand-new lab equipment.

The ideas are examined, and funding is approved to buy the required equipment.

The college used blocks to construct buildings. Each block is allocated to one or more departments based on the amount of floor space required by each department. Every classroom and lab has an LCD projector installed, and notice boards that provide updates on the institution's daily operations and the latest technological advancements that support students' learning are also present. Even pupils report new technological information they find from other sources on their own initiative.

Modern classrooms, tutorial rooms, seminar halls, faculty cabins, conference rooms, dining halls, student common areas, sports facilities, a gym, a yoga studio, and venues for cultural activities are just a few of the amenities on this campus.

In addition to the Dining Halls, the Food Village has a convenience store, a transportation hub and a range of food and beverage businesses.

The school has a health clinic with emergency beds for employees, students, and staff that is open around-the-clock. All of the department's laboratories are fully utilised, while some are used in accordance with the curriculum. In the labs (R&D and Incubation Centres), our students receive both academic instruction and hands-on training related to specific theoretical concepts. Modern equipment is installed in the labs. Students receive one-on-one coaching since the practical aspects of today's engineering courses are crucial.

The establishment boasts three lecture halls, two R&D centres, an advanced computer centre of excellence, and an auditorium with adjustable seating arrangements. They can be used by any department, based on the need for seats. The organisation is adequately funded to do routine maintenance on its infrastructure. Infrastructure facilities are maintained and their best use is promoted by efficient procedures.
